I got my tattoo done by Zac on recommendation. He was great at translating my idea into a design and incredibly patient with the back and forth on updating the design to make sure it was exactly what I wanted. I've also seen some of his other work and he's talented and great with detail. I'd recommend and would go back again.

Zac tattooed me, did a great job of what was a previous mess. Completely fixed what was there before. If I get another tattoo I know where I'll be going.
